Tynor Cervical Pillow Regular

Product Category

Instruments & Appliance

Product Sub-Category

Patient Aid & Others

Technical Details

Tynor cervical pillow regular is designed to keep the neck in the slightly hyperextension position at night to counter the stress and strain of the day where we tend to keep the neck in the opposite "flexion" position. It prevents and helps cure the cervical problems while you sleep by promoting the healthy, neutral posture of the cervical spine.

Tynor Contoured Cervical Pillow

Product Category

Instruments & Appliance

Product Sub-Category

Patient Aid & Others

Technical Details

Tynor contoured cervical pillow is anatomically shaped and designed to support the cervical spine in neutral position during sleep. Contoured Cervical Pillow keeps the neck in slightly hyper extension position while sleeping. This counters the stress and strain of the day by relaxing the muscles, where we tend to keep the neck in the opposite "Flexion" position. It cures the cervical problems while we sleep. Corrects the sleeping posture and straightens the spine.

Tynor Heating Pad

Product Category

Instruments & Appliance

Product Sub-Category

Patient Aid & Others

Technical Details

Tynor Heating Pad is a user-friendly device to provide controlled hot fomentation. Hot fomentation of the injured/sprained area is particularly helpful for sub-acute and chronic injuries, it induces vaso dilation and tissue healing. The warmth decreases muscle spasm, relaxes tense muscles, relieves pain and can increase the range of motion. Along with pain relieving drugs, hot fomentation has a synergistic effect.
