Super Impex is a Joint venture of our associate manufacturers & Super Impex to professionally distribute the entire range of electrical fittings and accessories. The core competence area of Super Impex is its high standards in Quality. ACE is backed by strong foundations of ISO 9001: 2000 Manufactures & UL approved Products of its parent companies SUPER IMPEX which is UL listed for S.S Grounding Equipment (The safety standards for US and Canada). The best of these two companies combine to give you unmatched excellence in all its products & services, from manufacturing to delivery of its finished goods. All the products are designed to met international standards, ensuring compliance with the demands of a majority of end users. Super Impex welcomes you to discover, for yourselves, the best in the field fo Electrical Fittings and accessories.

Products Description

Copper Bonded Grounding Rod

BRAND INDIA ENGINEERING E-CATALOGUE

Technical Details

ACE" copper bonded earth rod are made from low carbon Steel. Earth Rods are molecularly bonded with 99.9% pure electrolytic copper. Salient Features- Perfectly Bonded rod will last longer, drive easier and will not crack. Corrosion resistance while providing the lowest resistance to ground. Threads are rolled by roll threading process, which ensures that an even copper covering is maintained, even at the roof of the thread. Roll thread gives greater strength than cut thread. Thread rolling process raises the surface of the rod, so that thread dia (T) is greater than shank dia. (S). As seen in figure: -

CW Cable Gland (3 PART)

Technical Details

For use with Armour cable, secures armouring & provides electrical continuity between armour and gland entry component. Also provides a seal on the outer sheath of the cable thus ensuring no damage to cable sheathing. These are used both indoor & outdoor, in all climatic conditions as it is weatherproof & waterproof. DESIGN FEATURES- * 2 part armour/earth lock * Knurled armour lock produces a low resistance earth clip

Cable Ducts / PVC Channles / Panel Trunkings

Technical Details

Made of rigid poly vinyl chloride (PVC) of high tensile & compressive strength. Highly durable, will not crack, peel or chip, also resistant to oil, fungus, salt solution etc.. Non brittle, non inflammable and also warp proof. Fast & efficient locking guaranteed because of specially designed duct & cover. Slotting patterns prevents wire from popping up, while removing cover. Elongated slots at the bottom makes flexible mounting possible. Special orders regarding colours, length or modification of existing range can be manufactured as per your Spec.

BRASS SPLIT BOLT CONNECTOR

Technical Details	<p>'ACE' manufactures a vast range of line taps to meet the materials & dimensional specifications laid by different international standards. Brass line taps are made with high tensile brass as per BS 2874 - CZ 112. Threads are formed by rolling process giving the nut extra clamping force. Pressure pads are made from extruded bars (not cast), preventing the pads from cracking. Brass line taps are manufactured in passivated natural brass with electro tinned finish. They are also supplied in high conductivity copper.</p>
