The Escorts Group is among India's leading engineering conglomerate operating in Tractors, Agri-Machinery, Construction & Railway equipment. Escorts Agri Machinery commenced its operations in 1964 and has since pioneered farm mechanization in India. Over a million tractors have rolled out from the facilities of Escorts. In addition to Tractors, EAM also manufactures a wide range of Agri Equipments under its Farm Power range. Farmtrac and Powertrac are leading brand of tractors from house of Escorts, ranging from 12HP – 120HP in Compact, Utility, Narrow, CRDI & Higher HP segments. EAM has already produced in house Stage IIIA, IIIB, V emission compliant engines up to 90 HP and has tractor range certified and homologated for tough markets in Europe and America. ESCORTS ranks among the top conglomerates in India, with the country's most modern tractor manufacturing plants and annual turnover is around \$ 1 Billion. EAM has in recent times taken technology and innovation leaps by introduced India's first HST (Hydro Static Transmission) on its Compact range, Electric Tractor and now an Autonomous Tractor. With our manufacturing plants in India & Poland, a strong sales & distribution channel, we have a global presence in 62 countries of Africa, Asia, Europe, South East Asia and The America's
