NEW

stilo
580

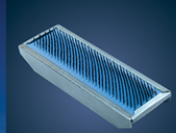

Suitable For
Cotton
medium, combed
& fine counts

Features
Tops with special setting pattern
suitable for high production cards.
Gives best NRE %

♦ Flat tops pins made out of **Special grade oil tempered steel** with high fatigue properties.
♦ Tips are extra hardened in advance **HAQ** - method (Hydrogen fuel flaming and cryogenic quenching).
♦ This advance treatment keeps the flat tops naturally clean, due to smooth surface finish.

BRAND INDIA ENGINEERING E-CATALOGUE CARD CLOTHING

FLAT TOPS

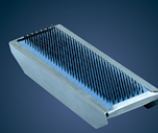

PG Series

Suitable For
Cotton - coarse, medium, combed & fine counts

Features

1. Variable density - low density at material entry & higher density at material exit.
2. Better elimination of short fibres and neps through fat waste.

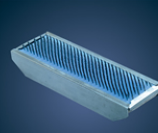

UNO Series

Suitable For
Cotton & PC Blends (Polyester & Cotton)

Features

1. Uniform density - Flat tops wire PPSI uniform across the width of fat top.
2. Unique setting pattern of fat tops provides better fibre trapping, better elimination of short fibre & neps at high production rates.

RECTO Series

Suitable For
100% Polyester, Acrylic, Recycled waste & bleached cotton.

Features

1. Rectangular wire with no knee bend - Re-grinding not required.
2. Semi rigid tips - Extraction of low fat waste.
3. Suitable for very coarse micronase / denser fibres and slower hanks.
