Niraj Industries was founded in 1980 as one of the HMD group of company to manufacture surgical blades and scalpels. Its primary markets are India, USA, Europe, Middle East and secondary markets – Africa and S.E. Asia. and has over 350 employees. All the Products are marketed through an established national and international distribution network of more than 4500 dealers to ensure ready availability even in remote areas, and effective customer service support. HMD marketing philosophy is to manufacture products of international standard and attempt to offer them for the benefit of patients and doctors at affordable prices. HMD manufacturing philosophy is to achieve the best quality using the most economical mass-production technology, harnessed through a dedicated production team, in a harmonious industrial atmosphere as per requirement of ISO 9001, ISO 13485 and the European M.D.D. Products carry CE Mark. The corporate philosophy of preventive maintenance of human relations ensures that there is no need for any labour union to exist.
