Incorporated in 1988, we are a reputed manufacturer and exporter of a wide range of Centrifugal Pumps, Tractor Driven Pumps, Self-Priming mud pumps, Water Circulating Pumps, Diesel Engines and Power Alternators under "Doctor" brand. Our products and systems are used by our customers across India and abroad for various applications like Irrigation, Industrial, Mine Dewatering, Marine, Deep Well Boring, Flood Control, Fisheries, etc. The motto "Quality at par Excellence" has been an integral part of our organisation since its inception and that is why our customers trust Doctor Pumps as a reliable solution for their application. Be it a farmer when he needs to pump water from a Canal up to his field 10 km away or be it Municipal Corporations when they need to remove water from an Underpass after heavy rainfall, Doctor pumps have been a preferred and a reliable choice. We have always believed in providing a solution to our customer rather than a product and that is why Doctor Pumps haven been providing innovative solutions time and again. Like Doctor Pumps is a pioneer of Tractor PTO Driven Centrifugal Pumps and Power Alternators which has proved to be a portable and economical solutions for our customers.

Products Description

BRAND INDIA ENGINEERING E-CATALOGUE

Diesel Engine Driven Centrifugal Pump

Technical Details

Air Cooled/ Water Cooled Diesel Engine driven Centrifugal Pump mounted on a Base Frame or a Trolley with optional Self Start and a Engine Parameter Monitoring Panel. Available Delivery head upto 150 meters and discharge upto 119 Lps.

BRAND INDIA ENGINEERING E-CATALOGUE

Model: FMCS-2 (80 x 65)

Technical Specifications:

1. Volute Casting Type Direct Couple Turbo-Gear Pump with Triangle Flange
2. Inlet & Outlet Size (in mm): 80 x 65, Center Delivery
3. Required HP: 18 HP
4. RPM: 1500 Clock-wise rotations (Pump RPM: 1500 & Gear Box Ratio 1:2)
5. Head Range (in meters): 25 to 30 meters
6. Discharge (in lps): 25 to 30 lps per second
7. Suitable for direct couple with high speed diesel engine / electric motor
8. Available Size: 80 x 65
9. Special Features: Double Bearing & Suitable for High Head Industrial Applications

Model: FMDS-3 (125 x 125) • Technical Specifications:

1. Volute Casting Type Direct Couple Turbo-Gear Pump
2. Inlet & Outlet size (in mm): 125 x 125, Center Delivery
3. Required HP: 22 HP
4. RPM: 1500 Anti-clock-wise rotations
5. Head Range (in meters): 6 to 12 meters
6. Discharge (in lps): 58 to 45 lps per second
7. Suitable for direct couple with high speed diesel engine / electric motor
8. Available Size: 80 x 65 | 80 x 80 | 100 x 100 | 125 x 125 | 150 x 150 | 200 x 200
9. Available with Triangle Flange & 7-shaft hole as required
10. Special Features: Double Bearing & Gland rope type seal

Model: FMDC-15 (80 x 65) • Technical Specifications:

1. Volute Casting Direct Couple Centrifugal Pump
2. Inlet & Outlet size (in mm): 80 x 65, Center Delivery
3. Required HP: 12 HP
4. Center Height: 203mm
5. RPM: 1500 Anti-clock-wise rotations
6. Head Range (in meters): 22 to 37 meters
7. Discharge (in lps): 20 to 12 lps per second
8. Suitable for direct couple with high speed diesel engine / electric motor
9. Available Size: 65 x 51 | 80 x 40 | 80 x 65 | 100 x 80 | 150 x 100
10. Available with Triangle Flange
11. Special Features: Double Bearings & Double Gland rope type seal

Is OEM Supplier?

Remarks : We are OEM Supplier for many reputed Brands in India and abroad and we are positive for more such partnerships.

Is After Sales Service Provider?

Yes

BRAND INDIA ENGINEERING E-CATALOGUE

Importance of niche products	<p>Our products have proved to be a reliable pumping solution for applications like Irrigation, Mining, Flood Control, Industrial, etc. For Example our pumps are operational for pumping Water from a Canal upto a field 10 km away for irrigation. Here the importance of the product is that no electricity is available in such remote areas and therefor farmers rely on Stationary Engine Driven Pumps or Tractor Driven Pumps. For Example our Tractor PTO Driven Pumps are used as Standby system for Emergency situations like Floods. Here high discharge pumps can be used to remove water as quickly as possible.</p>
Potential market of niche products	<p>For irrigation applications: India, Africa, Middle East, Central and Latin America For Industrial applications: Chemical Industries, Ceramic Industries, Foundries, Sugar Industry, Edible Oil, Textiles, etc. Other potential markets: Mining, Emergency Flood Control, Fire Fighting, Fisheries, Domestic applications, etc.</p>
Product Supply Record	<p>Gov. of Iraq funded irrigation project wherein Water Pumpsets were provided to the Farmers from Govt. Here we provided complete Pumpsets with Air Cooled Diesel Engine. Supply of Irrigation Pumps to Honduras in Central America. Supply of Centrifugal Pumps to Egypt. Supply of Tractor Driven Pumps and Power Alternators to Australia. Supply of Irrigation Pumpsets to Ghana in Africa.</p>
