Sectors of Interest	Manufacturer of Medical Devices
Is After Sales Service Provider?	Yes
Importance of niche products	Operation Theatre has different lighting systems depending upon the type of surgeries being performed under it. The OT (operation theatre) Light can be either Ceiling mounted, wall mounted or portable/mobile/roller based. It can also be either Single dome, dual dome, triple dome depending upon the type of complexity and number of surgeons operating. Also the intensity of the OT light varies depending upon the type of surgeries, depth, area to be covered, shadowlessness, etc.. HexaWave LED OT Lights manufactured by Wave Visions has all variants along with some other features like camera attachment, remote control, etc...
Potential market of niche products	Each Major or Minor operation Theatre (room) must have at least one Operation Theatre Light, and all surgeries have to take place in operation theatre. and mostly each surgeon in private sector operates in individual OT. Currently there may be around 60,000 to 80,000 operation rooms in India in operating condition.
Product Supply Record	Wave Visions is supplying to all hospitals -state and central Government hospitals, Military hospitals, ESIC, Semi government hospitals, Private corporate hospitals and individual surgeons' hospitals. The Export portion currently is very small, though Wave Visions has exported in past.
Patented Technologies	Wave Visions has no patents, however our product brands are trademark registered e.g. HexaWave, SpotWave, HeadWave, etc..
Awards/Accolades	Best Innovation in electronics sector in MSME from NPC, Govt of India in 2014-15.
