Over the last 15 years, the Harsoria group has carved a niche for itself in the Medical Devices space with demonstrable excellence in all aspects of the Medical Devices value chain. We work with industry leaders and global companies from diverse geographies and with diverse requirements with the same dedication and professionalism. The Research and Development wing of Harsoria is well established and has the prestigious approval from the “Department of Scientific and Industrial Research” of the Indian Government. We have helped clients across the globe to develop and produce existing products more efficiently, as well as develop new and patented products reliably. We own several patents for unique medical devices. We are known in our industry as an innovator, an ethical employer and a cost effective supplier.
