CM Flowmeters (India) Pvt. Ltd. (an ISO 9001 and ISO 13485 certified company) was established in 1967. The company is a reputed manufacturer and worldwide exporter of Rotameters (Variable Area Flowmeters) for industrial, scientific and medical applications. Our product range comprises various types of Industrial Rotameters, virtually any type of Anaesthetic Rotameter, complete Anaesthetic Rotameter Units together with anti-hypoxia device, and Paediatric Oxygen Rotameters. CM Rotameters are manufactured from quality materials sourced from reputed and reliable manufacturers and vendors. The Rotameters conform to relevant international standards. Customization facility is also offered by us, so that the specific requirements of each customer can be fulfilled in an appropriate manner. We have been working closely with leading anaesthesia machine manufacturers (both human and veterinary), industrial units and scientific laboratories from the late-1960, to meet their Rotameter requirements. In India, the CM brand is highly reputed for quality, accuracy, reliability and customer service. Since 2003, CM Rotameters are exported worldwide, a testimony to global recognition and preference. Our in-house Master Instruments (sourced from USA) are regularly calibrated at the reputed Fluid Control & Research Institute (FCRI), in Palakkad, Kerala., a Govt. of India Enterprise.
