SkipperSeil Ltd. is a global player in the field of Power & Infrastructure, serving clients in Power Generation, Transmission and Distribution in over 50 countries, especially Africa, Middle East, India and SAARC. Skipper's best-in-class product range, through its manufacturing units in India, UAE & Africa, includes Low-Voltage Panels, SCADA, Automation & Instrumentation Panels and Power Transformers up to 500MVA/765kV class. Skipper's products are type-tested by internationally accredited laboratories such as ASTA, CPRI and ERDA according to IEC/ANSI/IS standards and are approved by various leading utilities in India, UAE, Nigeria, Ghana, Kenya, South Africa and more. Skipper has also successfully forward-integrated into EPC for EHV Substations, Transmission lines upto 400kV & Power Plant construction in gas, thermal and hydro generation with a strong focus on timely delivery and quality. Skipper's Infrastructure & Railway division specialize in developing Power Plants, Special Economic Zones, Light & Metro Railway Projects right from concept upto completion. Skipper's CSR initiatives in Skill development and Healthcare in various countries testify the Company's commitment to "Making Difference in the Lives of Millions Everyday".?

Products Description

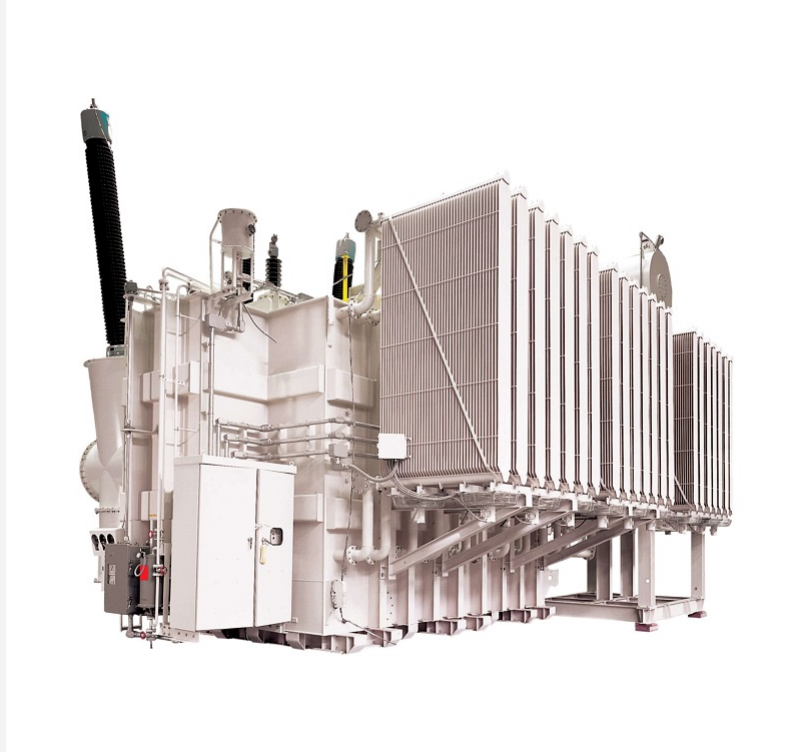

Power Transformer

Technical Details

Power Transformers upto 500MVA/765kV

Sectors of Interest	Utilities, Heavy Industries, Power Generation, Transmission & Distribution, Hospitality
Is OEM Supplier?	Yes
Is After Sales Service Provider?	Yes
Importance of niche products	All our products are designed, manufactured and tested as per international standards. For 31 years, we have produced the highest quality Products and upheld the highest level of customer service. Skipper's products are type-tested by internationally accredited laboratories such as ASTA, CPRI and ERDA according to IEC/ANSI/IS standards and are approved by various leading utilities in India, UAE, Nigeria, Ghana, Kenya, South Africa and more. We have the capability of providing customized products to suits customer's needs! With its competitive edge of having strong engineering team and vertically integrated factory facilities, Skipper has diversified into EPC projects.
Potential market of niche products	Govt. Utilities, Heavy Industries, Hospitals, Real Estate, Contractors
Product Supply Record	1. 330/132kV & 132/33kV Transmission Substation, Nigeria 2. Supply & Installation of 2x65MVA, 132/33kV Substation at Lafarge Cement, Ogun State, Nigeria 3. Supply & Installation of :2x60MVA, 132/33kV Power Transformers and other substation equipment installed at Kudendan Power Plant in Kaduna, Nigeria 4. Supply & Installation of :2x60MVA, 132/33kV Power Transformers at Lanlate, Nigeria 5. Supply & Installation of :2x(4005/2823-2823), 33kV,2x565 V 12 Pulse Rectifier Transformer with air cooled heat exchangers in South Africa
