IPR and patent holders for some of the most Exiting technologies Worldwide in Critical Care Medicine and pulmonary and patient rehabilitation PneumoCare Received coveted India Design Mark for 2016 and 2017 for Hospital Full Face NIV masks(Easy2 Clean Mask) and Mucus Clearance Devices (MuClear) and presently developing new technologies to make ventilator work better. We were also shortlisted for Frost & Sullivan and Times Inc for innovation of the year award in Critical Care , and Respiratory medicine in 2015and 2016. Established in 1996 , it was only in 2012 that we finally decided to put our accumulated knowledge in importing and marketing concept based products into new product development which can stand on their own feet in the international market. PneumoCare today boasts of some of the most technologically advanced medical devices intended to reduce costs and reduce morbidity and mortality in Critical Patients in the Intensive Care Units. CE Registration for some products are still to be done including Hospicuff - patient restrainers

Products Description**Easy2Clean Hospital NIV Full Face Mask**

Product Category	Consumables
Product Sub-Category	Hospital NonVented Ventilation Masks
Technical Details	Applied to patients face non invasively as a substitute to invasive Endo Tracheal Tube.
ITC HS Codes	902000
