#### Safety Scalpels

**PARAMOUNT** embarks on a New Generation Scalpel to reduce the risk of injuries associated with sharp edges that could lead to high contracting diseases like HIV / AIDS, Hepatitis A, B, C etc. The Safety Scalpel is designed to prevent accidental needle sticks.

Glides easily and comfortably into locked position.

Metric ruler assists in determining length of incision.

Ribbed handle for perfect hold in gloved hands.

Sterile and ready for single use only.

10 scalpels in a dispenser box.

Dental disposable scalpels initially conceived for parodontology and Stomatology, because their form allows to do precise and fine incision, even in hardly accessible areas. These instruments have numerous applications in other disciplines like cardiology, plastic surgery, gynecology and neurology. They can be presented in two ways: with a plastic molded handle, or separately, in order to be fixed on a special handle.
