M/s. KwenG Alloys Private Limited, located at J – 66, G.I.D.C., Antalia – 396325 Bilimora, Gujarat, INDIA is a progressive technically based Company and has 50 people engaged in the Design & Manufacture of Sealless Magnetic Drive Equipments. The Company's growth is based upon product quality backed by a design and R&D Team actively engaged in ensuring that KwenG keeps to the forefront of Magnetic Drive Technology. A modern production facility - 20000 sq. feet including a clean assembly and test area ensures that the equipments are manufactured under the most stringent conditions. KwenG Alloys Private Limited was awarded the National Award for R&D in Industry in Mechanical Engineering category for the development of the Magnetic Drives by the Department of Scientific and Industrial Research (DSIR), Ministry of Science & Technology, Government of India on 22nd November 2001 at New Delhi.

Products Description

**SEALLESS MAGNETIC DRIVE CENTRIFUGAL PUMP - METALLIC CONSTRUCTION**

## BRAND INDIA ENGINEERING E-CATALOGUE

### Technical Details

Intrinsically Safe Design by Complete elimination of Mechanical Seals and Gland Seals. No Mechanical Seal Support System to monitor or maintain. Complete Sealless design by the introduction of Hermetically sealed Isolation Shell. Process fluid remains where they belong inside the system. Available for Heads up to 200 Meters and Capacity of 300 m<sup>3</sup>/hr Available for Operating temperature of -80C to +300C Choice of various metallic material of construction viz., Stainless Steel 316, Stainless Steel 304, Alloy 20, Hastelloy, Titanium, C.S.

### SEALLESS MAGNETIC DRIVE CENTRIFUGAL PUMP - NON METALLIC CONSTRUCTION

### Technical Details

Intrinsically Safe Design by Complete elimination of Mechanical Seals and Gland Seals. No Mechanical Seal Support System to monitor or maintain. Complete Sealless design by the introduction of Hermetically sealed Isolation Shell. Process fluid remains where they belong inside the system. Available for Heads up to 90 Meters and Capacity of 150 m<sup>3</sup>/hr Available for Operating temperature of up to 180C Choice of various material of construction viz., PFA Lined, FEP Lined, PTFE

Sectors of Interest

CHEMICALS, PETROCHEMICALS, PHARMACEUTICALS ETC

Is OEM Supplier?

Indigenous

Is After Sales Service Provider?

Yes

Importance of niche products

Designed for "ZERO LEAKAGE" Intrinsically Safe Design by Complete elimination of Mechanical Seals and Gland Seals. No Mechanical Seal Support System to monitor or maintain. Complete Sealless design by the introduction of Hermetically sealed Isolation Shell. Process fluid remains where they belong inside the system. Reliable in Service and Simple to maintain.

Potential market of niche products

ALL INDUSTRIES HANDLING & TRANSFERRING FLUIDS LIKE: Lethal Toxic Carcinogenic Corrosive Pure Aggressive Cold High Pressure/Vacuum Pyrogenic Cryogenic Acid Valuable Fire Risk Explosive Hot Noxious Poisonous Contaminated

Product Supply Record

BAYER, ENDRESS + HAUSER, ONGC, CHEMAGIS, GNFC, GULBRANDSEN ETC

Patented Technologies
