We introduce ourselves as one of the leading manufacturers of Power & Distribution Transformers, Cables and Conductors since 1972. We manufacture and supply Distribution & Power Transformers of various capacities ranging from 10 KVA to 100 MVA, 11/33/66/132 KV class and supply the same to the different State Electricity Boards, various Private & Government Organizations all over the country and Abroad. We currently run manufacturing facilities in India: Jaipur (Rajasthan), Agra (U.P.) and Kolkata (W.B.) and in Ethiopia (Dukem Industrial Area). It would not be out of place to mention here that in our relentless pursuit of quality we have been awarded an ISO 9001 Certificate to all our units. All our units have the most modern manufacturing facilities and we meticulously follow Design, Process and Quality Control checks at different stages of production to ensure that the product meets the specification and requirements of our customers. The Transformers manufactured by us have been successfully Short Circuit and Impulse Tested at NABL Accredited Laboratories (CPRI and ERDA). All the routine tests required as per IS:2026 and IEC:60076 are conducted in our factory.
