Innovative Mould Works is India's leading Metal component machining and Die & Pattern Shop serving industries involved in the manufacturing of Railways, Pump and Valve, Automotive, Transmission, Electric Motors, Gear Boxes and General Engineering. We are a professionally managed yet a dynamic organization excelling in our craft which is reflected in the fact that we are the proud suppliers of space components to the Indian Space Research Organization (ISRO). Through our adoption of concurrent engineering, our customers have a significant advantage of the reduced time to market products and a substantial reduction in cost. Our business ethics are aligned towards fostering long-term relationships and our uncompromising focus on production quality has garnered us formidable goodwill among our domestic and international customers.
