As the world is in the state of war with the novel Corona Virus. In order to reduce the spread of the virus. We have compiled all the COVID-19 Products helpful in preventing the spread. As a Personal Protective Equipment Manufacturer it's our duty to curb the spread of the virus. We along with many COVID-19 Equipment manufacturers are working day and night to serve the world in this state of emergency. COVID-19 originated from a family of other viruses that cause respiratory diseases like severe acute respiratory syndrome (SARS) and the Middle East respiratory syndrome (MERS). Because the novel coronavirus is a new strain, it's unfamiliar to our immune systems. Some of the products like Facemask, Alcohol Hand Sanitizer, Gloves and many more are available with us for the safety of the community. Let's all join together to make the earth free from the novel virus by breaking the spread chain.

Product Sub-Category

COVID 19 Product

BRAND INDIA ENGINEERING E-CATALOGUE

Technical Details

An Infrared Thermometer also called non contact thermometer or temperature gun -is a handheld device that can display temperature readout on it after scanning portions of an object or area with the built-in laser. The purpose of these laser thermometer is to measure your body temperature from a bit of a distance. Sticking a thermometer in everyone's mouths or rear ends would make us and others vulnerable to the virus. These devices are used in various places for COVID-19 screening.
